

DA-5

TUBE POWER AMPLIFIERS

Type : Stereo power amplifier
Bias : manual - adjustment when the tubes type is changed
Power : 40 W Rms per channel
Bandwidth @-3dB : 20Hz to 31KHz
Sensitivity : 460 mV
Tubes list : - 4 x 6550 / KT90
- 2 x ECC82
- 2 x ECC83
Dimensions :
Weight : 25 Kg
Consumption : 170W

Description : Stereo amplifier combining sobriety and efficiency, the DA5 was designed for medium efficiency speakers. Often associated with the DPL2 preamplifier, it is an essential part of a system where coherence between timbre and dynamics is undeniable. Its negative polarization in manual bias enables to choose the power tubes in a wide range.
